

Edit Company Product Identifiers

Note: To add a company product identifier (this could be a UPC, SKU, Item number or a unique identifier you may use) to each active small package product registered with the Office of the Texas State Chemist. You may enter multiple Company Product Identifiers for each registered product below, we recomend adding a comma between Identifiers. Firms cannot cancel active products or add new products on this portal.

The deadline to add/update company product identifiers is at 11:59 PM (CST) October 15, 2019.
